## About Alex

Alex has a background of 18 years in commercial archaeological fieldwork and is also experienced in the Archaeological Desk Based Assessment of sites, Historic Building Recording and the production of Heritage Statements. At AB Heritage Alex provides archaeological and cultural heritage consultancy and project management on a full range of projects, principally focused on the South of England. He is on the Advisory Council of the Chartered Institute for Archaeologists.

## Qualifications & Memberships

- MA - Maritime Archaeology
- BSc - Archaeological Sciences
- Member of the Chartered Institute for Archaeologists (MCIFA)

## Key Competencies

- Project Management
- Archaeological Site Investigations
- Reports and Publications
- Archaeological Desk-Based Assessments
- Heritage Statements

## Recent Projects

Over the last year Alex has assisted a range of clients with diverse needs from pre-planning advice to site investigations and discharging planning conditions. He has provided consultancy and project management services in relation to numerous planning and listed building applications including sites impacting Scheduled Monuments, Conservation Areas and archaeological remains.

Of particular interest have been investigations into prehistoric remains on the site of a proposed solar farm in rural Dorset, investigation of possible Roman remains in urban southeast London and assessing the impacts of new buildings on Birmingham's historic canal system.
